Introduction to Computer Security
Day 28: Student Project Presentations #3

Stephen McCamant

University of Minnesota, Computer Science & Engineering

Turn in presentation slides

- After presentation, send copy of slides to Stephen
  - PDF format preferred if possible
- Evaluation comments by email

Course evaluations next time

- Last 20 minutes of class on Wednesday
- Bring a pen or pencil
- Will need student volunteer to collect and return to CS dept. office

Final reports due Wednesday

- Due on Moodle by 11:55pm 12/11
- Submit `.tar.gz` file containing:
  - Report PDF: 8-12 pages + refs in ACM format
  - Contributions PDF: summarize hours worked and achievements of each member
  - Any other "deliverables" such as code, result details, etc.

Project evaluation

15% Originality

15% Scholarship

30% Strength of evaluation

40% Individual contribution

Final exam next Monday

- Same room (ME 108), 1:30-3:30pm
- Similar to midterm:
  - Open-book, open-notes
  - Multiple-choice and exercise-like questions
- Slightly longer than midterm
- Comprehensive, but weighted on second half of course
